SPEAK ENGLISH
THE WAY THE WORLD DOES

**Crossing language
barriers in India for 25
years**

INLINGUA INTERNATIONAL

Founded in Switzerland in 1968, inlingua International is one of the world's leading language training organizations and also one of the largest associations of privately owned language schools.

With more than 200+ language centers in 30+ countries across Europe, Africa, Asia, North and South America, inlingua International is a cut above the rest, with the wide range of high-quality services that it provides to its clients.

METHOD

The inlingua method is key to making language learning a success at our centers. It is based on decades of experience in language training and is continually being developed to match the needs of a changing world. The principles of this method are quite simple and make it easy for learners of any level.

TO LEARN YOU MUST HAVE FUN.

The most effective way to learn is while having fun. Learning then does not become a painful task, rather it becomes an activity you look forward to. Here, instructors are friendly guides who encourage you to have fun while you learn.

General English Program

This is an extremely flexible program to suit almost anybody who wants to learn to speak English well. It accommodates beginners as well as those who have some knowledge of English but want to improve further. The best thing is that you will always learn along with people who are at the same level of English as you. The class size will be limited, so each student gets the attention required to learn quickly.

The course package is comprehensive and includes spoken English along with free conversation and grammar classes.

Virtual / Online Classes

Our Virtual Classroom offers a unique face-to-face e-learning experience. Take an online language course with one of our experienced teachers and learn and practice at your convenience. The Virtual Classroom is ideal for students who would like to remain flexible – independent from fixed times or locations.

Our Virtual Classroom is an attractive alternative to a classroom environment. It provides an opportunity to learn and practice a language without being physically present at a local centre. This option works like a face-to-face webinar where you are able to interact with your trainer and other students in a dynamic environment. All you need to participate in one of our Virtual Classrooms is a computer with integrated audio and webcam.

Duration : 1.5 Months

Price : 8900/-* level

We also offer online courses in:

Foreign Languages

IELTS preparation

Courses for Kids

Private Courses
